Come listen to recognized leaders in the fields of genetics and cellular health address issues on NOT being victims of genetics or helpless against disease. With simple remedies you can be in charge of your health, your genetics, and your happiness.

**Can we heal the planet?**

According to pioneering biologist Bruce H. Lipton Ph.D. it is not only possible, it is already occurring. In their presentations, these visionary lecturers will reveal how our changing understanding of biology and health will help us navigate this turbulent period in our planet's history and how each of us can actively participate in this global evolutionary shift.
